

THE TOKEN BOARD SEQUENCE WITH CONTINUOUS REINFORCEMENT

Child responds with desired behavior

Staff immediately places a token on the board, labels the behavior, and provides praise

When board is full, staff says "Your board is full, let's count your tokens" and provides immediate access to the back-up reinforcer

Staff removes the earned tokens to prepare for another reinforcement cycle

Staff asks student, "What are you working for?" and ensures the back-up reinforcer is readily available

Sequence begins again
